

# BUILD YOUR BEST IT CAREER WITH HARRIS HEALTH

Harris Health Information Technology  
Eager to listen. Ready to deliver. Always caring.

Harris Health IT delivers secure, reliable and inclusive tools that support patient interaction and operational decisions. By focusing on people through collaboration and partnerships, we enable seamless care, smarter data use and continuous improvement across the Harris Health system.

Harris Health operates two hospitals and 39 healthcare centers, including primary and specialty clinics, ambulatory surgical centers and community outreach programs in partnership with two prominent medical schools. Plans call for new technology investments of \$100M+ over the next five years.

Our excellent benefits, available on Day 1, include medical plans and retirement savings plans with 5% match.
